

Illustrative render of the finished design - not a photograph of a sample

Bobble Christmas Tree

Bobble-stitch Christmas tree with six-point star topper · 12 cm

CROCHET PATTERN · US TERMS · EASY - INTERMEDIATE · 2 - 3 HOURS · INK-FRIENDLY PRINT LAYOUT

✓ 5-AXIOM MATH VERIFIED ON PAPER	BOBBLE ROWS	6-POINT STAR	FELT BASE	WORSTED #4

■ GREEN - TREE □ GOLD - STAR named original colourway

WHAT YOU GET	VERIFICATION	PRINT NOTES
Bobble-stitch Christmas tree with six-point star topper Full US-terms instruction tables Finishing, troubleshooting and care pages	✓ 5-axiom mathematical audit All round counts re-derived exactly Paper-verified: no sample crocheted	US Letter, no full-bleed colour Tables sized for home printers Checklist and record pages included

Every proportion pinned, counted and re-derived

each piece is worked in the order listed and sewn in the numbered assembly sequence; all stitch counts in this edition re-derive exactly from the written rounds.

Paper-verified edition: every stitch count, repeat multiplier, chain length and decrease schedule in this document was re-derived from its own instruction text. No sample was crocheted, blocked, weighed or measured, so all sizes, yarn quantities and times are targets for you to confirm on your first make.

Personal & small-batch finished-item licence · Design Code NS-12 · pattern text machine-verified (crochet-check v1.0.0)

Cover artwork is an illustrative render of the written design - not a photograph of a sample.

A soft standing fir built in one piece: plain rounds, then tier after tier of bobbles that thin out toward the tip. Contrast-colour bobbles turn it into baubles-on-a-tree in a single round.

FINISHED SIZE About 7 cm (2.8 in) tall and 7 cm (2.8 in) wide in worsted / aran on a 4 mm hook. The flat base rounds R1 to R9 add width, not height, so standing height counts the tapering cone rounds only (paper estimate - measure your sample). About 9.5 cm tall in chunky yarn on a 5 mm hook. One piece; a felt or cardboard base disc is optional.

Safety — read this first

As written, the contrast-colour bobbles are crocheted into the fabric and the design has no beads or glued decorations. Adding beads, bells or other embellishments can create detachable small parts; do not add them without reassessing the finished item. Stuff firmly and secure every yarn end.

No finished tree has been shown by Novality Store to comply with ASTM F963, EN 71 or another toy-safety regime. Omitting embellishments removes those component hazards but does not establish age suitability or product compliance. Before supply, the finished-item maker or seller must determine all applicable classification, assessment, testing, documentation, labelling and traceability duties in every destination market.

Materials

- Main yarn: worsted / aran (#4) in green, about 15 g (paper estimate at roughly 1.6 g per 100 stitches, bobbles included).
- Contrast (optional): small amounts of red, gold, cream for contrast bobbles.
- Hook: 4 mm (US G-6); use 3 mm for DK mini, 5 mm for chunky.
- Stuffing: fibre fill about 25 g (a little only - the tree stands on tension).
- Optional: 1 circle of cardboard or firm felt for the base. Trace inside the R9 fold ridge and cut the circle 3-5 mm smaller; at the stated gauge it will usually be 55-65 mm across.
- Notions: stitch marker, tapestry needle, scissors.

Gauge & size

Aim for a firm fabric (~10-11 sc x 11 rounds = 5 cm). Exact size is not critical; droopy bobbles mean too much stuffing - the shell should hold its cone almost on its own.

Abbreviations (US + UK)

MR - magic ring · BLO - back loop only

ch - chain · BO - 5-dc bobble (counts as 1 st) / UK: 5-tr bobble (counts as 1 st)

sl st - slip stitch · FO - fasten off

sc = dc - single crochet / double crochet · st(s) - stitch(es)

inc - increase (2 sc in one st) / UK: increase (2 dc in one st) · R - round

sc2tog = dc2tog - work 2 stitches together as one (a decrease) · (n) - stitch count at round end

How to read this dual pattern: every round appears twice side by side - the US-terms instruction in the left column, the exact UK equivalent in the right column. Stitch counts are identical for both terminologies. Prose tips use US terms.

Construction & techniques

Worked in continuous rounds from the base up - no joins, no starting chains. The BLO round (R9) turns the flat base upward into the cone wall. Bobble rounds alternate with plain rounds; every bobble round from R12 onward hides one sc2tog per repeat, so the cone tapers evenly and the bobbles stay in regular columns.

The magic ring - Work 6 sc into a ring and pull the tail tight.

Back loop only (BLO) - Work into the far loop only. The unused front loops form a ridge that makes the base fold neatly under the tree.

The 5-dc bobble - Yarn over, insert hook, pull up a loop, yarn over and pull through 2 loops (incomplete dc). Repeat 4 more times in the same stitch - 6 loops on hook - then yarn over and pull through all 6. Counts as ONE stitch.

Contrast bobbles - The bobble itself must be worked in the contrast colour. Complete the final pull-through of the stitch BEFORE a bobble with contrast yarn (for the first bobble of a round, change on the last stitch of the preceding round). Work all five incomplete dc in contrast, then use green for the final yarn-over and pull it through all 6 loops. Continue the next stitch in green, carrying the unused colour loosely inside. Do not work a green bobble and change only its closing loop - that makes a green bobble with a contrast-colour top, not a contrast bobble.

sc2tog decrease - One decrease per repeat hides inside each bobble round, always in the LAST position, so the bobble columns stay straight.

Instructions

1. Tree - one piece, green (contrast optional)

The cone tapers between bobble tiers; the plain round between them keeps each tier distinct. If using a rigid base disc, insert it immediately after Rnd 9 while the opening still has 48 stitches. Begin adding small amounts of stuffing after Rnd 14 and continue every 2-3 rounds - do not wait until the six-stitch tip.

R26	sc2tog x 3	dc2tog x 3	(3)

Finish: FO with a tail, thread through the last 3 stitches, pull the tip closed and weave the end down through the tree.

Stuffing: only the bottom half needs real fill - a lightly stuffed cone that flexes is nicer than a rigid one. After Rnd 9, trace just inside the fold ridge, cut the optional felt or cardboard disc 3-5 mm smaller than that outline (usually 55-65 mm at the stated gauge), and place it against the inside of the base; it will not pass through the narrowed tip later. Cardboard makes the tree non-washable. Add stuffing progressively from Rnd 14 and keep the upper cone light.

Finishing & assembly

- Contrast bobbles: change TO contrast before each bobble, work its five incomplete dc in contrast, then change BACK to green on the bobble's closing pull-through. One or two contrast tiers look best.
- Base: for a shelf decoration, place the optional disc after Rnd 9, keep it flat against the base while you work, and stuff around it gradually.
- Hanging: join any colour at the tip, ch 18, sl st into the same place.
- Set of three: DK + 3 mm hook, worsted + 4 mm hook, chunky + 5 mm hook - counts are identical, sizes stair-step from about 5.5 cm to 9.5 cm.

Troubleshooting

- **Bobble columns wander.** Your round start drifted with the spiral - a stitch marker in the first stitch of every round keeps the repeat anchored. A little lag looks natural: real fir boughs point downhill too.
- **Tip flops.** Over-stuffed at the top. Take two pinches of stuffing out of the cone tip and re-cinch R26 tightly.
- **Base will not sit flat.** You skipped the BLO ridge (R9) or worked it loosely. That ridge is the fold - re-press it with a fingernail while shaping.

Colorways

Fir green · Sage velvet · Snow white · Crimson berry · Gold-tipped

Helpful tips

- Why every bobble tier shrinks by 6: each [BO, k sc, sc2tog] repeat works one hidden decrease, at the END of the repeat, so the bobbles never drift out of their columns even while the cone narrows 10 rounds in a row. R22 is the extreme case: [BO, sc2tog] uses 3 sts and makes 2 per repeat - 18 sts used, 12 left, nothing unworked.

Care

Follow the labels for every yarn and insert used. A tree containing cardboard is not washable; keep it dry and surface clean only. Before publishing any other care claim or supplying finished trees, clean and dry a complete sample made with the exact proposed insert and yarn, then inspect for dye transfer, distortion, stuffing migration, bobble damage and a warped base. Until that sample test passes, recommend gentle surface cleaning with a damp cloth and drying upright away from heat.

Terms of Use

Copyright & ownership

This crochet pattern - including all instructions, stitch counts, photography and design elements - is the original work and intellectual property of Novality Store, designed by Novality Crochet Studio. Design Code NS 12.

This pattern is licensed to the purchaser for personal use and for the small-batch sale of finished physical items under the terms below. You may not copy, redistribute, resell, share, translate, reproduce, or claim the pattern itself as your own. The pattern itself may not be uploaded, reproduced, or distributed in digital or printed form without permission from Novality Store.

You may

Make as many finished trees as you like for yourself, gifts, or charity. Sell physical finished items made from this pattern in small batches, in shops, markets and online, provided credit is given to "Novality Store".

You may not

Do not resell, share, redistribute, translate, rewrite, publish or upload this digital PDF or its contents in any form. Do not alter, copy or recolor the pattern and claim it as your own. Do not use the Novality Store name, logo or photos beyond crediting the pattern. Do not mass-produce finished items commercially without written permission.

Safety reminder

No finished tree has been shown by Novality Store to comply with ASTM F963, EN 71 or another toy-safety regime. Avoid beads, bells and glued decorations unless the altered item is fully reassessed. The finished-item maker or seller is responsible for market-specific assessment and evidence before supply.

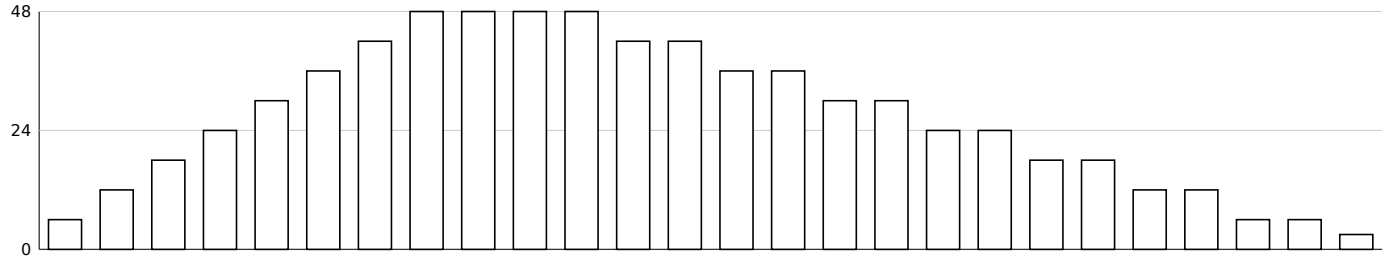

Happy crocheting!

Verification summary

Every round count in this pattern was re-derived from its own instructions by an independent auditor (PASS: 26 ladder rows, 0 mismatches) and by the deterministic static-analysis engine crochet-check v1.0.0. No count below is sampled or hand-checked.

Axiom	What it guarantees	Findings
Domain Isolation	Pieces keep separate stitch domains	0
Edge Lineage	Every round consumes exactly the previous total	0
Open Boundaries	Open edges are closed or sewn deliberately	0
Gauge Bounding	Hook and gauge band consistent with stated size	0

Assembly map, count chart, ladder equivalents and the 5-axiom table are computed from the corrected master at compile time; no sampled results.
