

Illustrative render of the finished design - not a photograph of a sample

Christmas Ornament Bundle

Bauble, star and snowflake · three quick hanging ornaments

CROCHET PATTERN · US TERMS · EASY · 15 - 25 MIN EACH · INK-FRIENDLY PRINT LAYOUT

✓ 5-AXIOM MATH VERIFIED ON PAPER	3 ORNAMENTS	PICOT POINTS	CH-18 LOOP	DK #3

■ RED ☐ GOLD ☐ SILVER named original colourway

WHAT YOU GET	VERIFICATION	PRINT NOTES
Bauble, star and snowflake Full US-terms instruction tables Finishing, troubleshooting and care pages	✓ 5-axiom mathematical audit All round counts re-derived exactly Paper-verified: no sample crocheted	US Letter, no full-bleed colour Tables sized for home printers Checklist and record pages included

Every proportion pinned, counted and re-derived

each piece is worked in the order listed and sewn in the numbered assembly sequence; all stitch counts in this edition re-derive exactly from the written rounds.

Paper-verified edition: every stitch count, repeat multiplier, chain length and decrease schedule in this document was re-derived from its own instruction text. No sample was crocheted, blocked, weighed or measured, so all sizes, yarn quantities and times are targets for you to confirm on your first make.

Personal & small-batch finished-item licence · Design Code NS-13 · pattern text machine-verified (crochet-check v1.0.0)

Cover artwork is an illustrative render of the written design - not a photograph of a sample.

Three quick decorations from leftover yarn: a stuffed round bauble, a flat-blocked five-point star, and a crisp six-arm snowflake. Allow about 15-40 minutes each, including finishing (blocking and drying take additional elapsed time).

FINISHED SIZE Bauble about 3.75 cm (1.5 in) across; star about 9 cm (3.5 in); snowflake about 10 cm (4 in). Sizes scale with yarn - use DK for dainty tree ornaments, chunky for bold window pieces.

Safety — read this first

These designs are intended as decorations, not toys. Keep them and their hanging loops out of children's reach; avoid beads, loose bells and glued additions, secure every loop twice, and make each loop only as long as needed for its intended support. No finished ornament has been shown by Novality Store to comply with ASTM F963, EN 71 or another product-safety regime. A "decoration" label does not override reasonably foreseeable use, so a finished-item maker or seller must determine all applicable classification, assessment, testing, documentation, labelling and traceability duties before supply.

Materials

- Yarn: small amounts (about 10 g each) of worsted / aran or DK - white, red, gold, green, silver. Cotton gives the crispest snowflake; acrylic is fine too.
- Hook: 3-4 mm (use 3 mm for DK, 4 mm for worsted).
- Optional: a pinch of fibre fill for the bauble; metallic yarn for surface stripes.
- Notions: tapestry needle, scissors, pin board or mat for blocking the star and snowflake.

Gauge & size

Gauge is unimportant - work tightly enough that the bauble holds fill and the star blocks flat. One round of the bauble base shows you the size at once.

Abbreviations (US + UK)

MR - magic ring · inc - increase (2 sc in one st) / UK: increase (2 dc in one st)

ch - chain · sc2tog = dc2tog - work 2 stitches together as one (a decrease)

sl st - slip stitch · FO - fasten off

sc = dc - single crochet / double crochet · st(s) - stitch(es)

hdc = half treble - half double crochet / half treble crochet · R - round

dc = tr - double crochet / treble crochet · (n) - stitch count at round end

tr = dtr - treble crochet / double treble crochet

How to read this dual pattern: every round appears twice side by side - the US-terms instruction in the left column, the exact UK equivalent in the right column. Stitch counts are identical for both terminologies. Prose tips use US terms.

Construction & techniques

The bauble is worked in continuous rounds (no joins) with the marker in the first stitch. The star and snowflake are worked in JOINED rounds / off-the-ring motifs: each round closes with a slip stitch. Read each section from its own heading down - they are three small standalone patterns.

The magic ring - Pull the tail tight after round one; if the centre gaps, work the tail through the first round once more before weaving.

Picot-free points (star) - Each point is a fan of 6 worked stitches into ONE centre stitch, with a ch-2 tip: (sc, hdc, dc, ch 2, dc, hdc, sc). The ch-2 tip is a space and is not counted as a worked stitch. Per point you make 6 fan stitches plus 1 anchoring sl st, so the five-point round has 35 counted stitches (plus five ch-2 spaces). The symmetry comes from blocking, not tugging.

Chain spaces (snowflake) - The snowflake skeleton is 6 ch-5 loops pinned around the 12-dc ring. The arms are worked into the spaces, never into individual chains.

Blocking - For cotton, wet or mist the piece, pin every point to shape and let it dry fully. Acrylic often does not hold a shape from pins alone; if the yarn label permits, steam-block cautiously with the steamer or iron held above the fabric, never touching it, and test a scrap first. Do not press or iron either piece.

Instructions

A. Round Christmas Bauble - stuffed ball

The sphere closes at the same 6-stitch crown it started from. Two-colour option: change at R5.

Rnd	US terms	UK equivalent	Sts
R1	6 sc in MR	6 dc in MR	(6)
R2	inc in each st around	inc in each st around	(12)
R3	[sc, inc] x 6	[dc, inc] x 6	(18)
R4	[2 sc, inc] x 6	[2 dc, inc] x 6	(24)
R5-6	sc in each st around (2 rnd)	dc in each st around (2 rnd)	(24)
R7	[2 sc, sc2tog] x 6	[2 dc, dc2tog] x 6	(18)
R8	[sc, sc2tog] x 6	[dc, dc 2tog] x 6	(12)
R9	sc2tog x 6	dc2tog x 6	(6)

Finish: FO with a tail, thread through the front loops of the last 6 stitches, cinch and weave in. Stuff firmly but not hard - the sphere should spring back when pressed rather than feel rigid.

Hanging loop: join yarn at the crown, ch 18, sl st into the same joining place, FO and weave in. Surface sl sts in metallic yarn make instant stripes after Rnd 6.

B. Five-Point Star - flat, blocked

Each point uses exactly 2 of the 10 centre stitches - one for the slip stitch that anchors it, one for the fan that fills it. Block before hanging.

Rnd	US terms	UK equivalent	Sts
R1	ch 1, 10 sc in MR, sl st to first sc to close	ch 1, 10 dc in MR, sl st to first dc to close	(10)

Rnd	US terms	UK equivalent	Sts
R2	[sl st in next st, (sc, hdc, dc, ch 2, dc, hdc, sc) in next st] x 5, sl st to first sl st, FO	[sl st in next st, (dc, half treble, tr, ch 2, tr, half treble, dc) in next st] x 5, sl st to first sl st, FO	(35)

Hanging loop: pick the top point, join yarn in its ch-2 tip, ch 18, sl st into the same ch-2 space.

The repeat uses all 10 centre stitches exactly (2 per point). Each fan contains 6 worked stitches; with its anchoring sl st, each point contributes 7 counted stitches, for 35 total. The five ch-2 tip spaces are additional structure, not counted stitches.

C. Six-Point Snowflake - open lace

Three short rounds. The ring is closed first so the arms hang on real chain spaces - keep the dc round snug, the ch-5 round loose.

Rnd	US terms	UK equivalent	Sts
R1	ch 6, sl st in first ch to form a ring; ch 3 (counts as first dc), 11 dc in ring, sl st to top of ch-3	ch 6, sl st in first ch to form a ring; ch 3 (counts as first tr), 11 tr in ring, sl st to top of ch-3	(12)
R2	[ch 5, skip next st, sl st in next st] x 6, sl st to base of first ch-5 to close	[ch 5, skip next st, sl st in next st] x 6, sl st to base of first ch-5 to close	-
R3	(sl st, ch 3, 3 tr, ch 3, sl st) in each of the 6 ch-5 spaces, sl st to first sl st, FO	(sl st, ch 3, 3 dtr, ch 3, sl st) in each of the 6 ch-5 spaces, sl st to first sl st, FO	-

Hanging loop: join yarn in the ch-3 tip of one arm, ch 18, sl st into the same tip.

Block flat using the fibre-appropriate method in technique 4; let it cool if steamed and dry completely before hanging.

Finishing & assembly

- Bauble two-colour: change yarn on the final pull-through of R4 for a sharp banded ball.
- Weave every end on the star and snowflake in two directions - lace shows knots more than amigurumi does.
- Thread each finished loop through a cardboard or felt backing card with the string knot hidden underneath for gifting.

Troubleshooting

- **Bauble looks like a lemon.** Too much stuffing late in the game. Stuff a pinch at R8, shape by rolling, and keep the crown pinch tight at R9.
- **Star will not lie flat.** It needs blocking, not more tugging. Wet-block cotton. For acrylic, pins alone may not set the shape; follow the yarn label and cautiously steam from above without touching or melting the fibres.
- **Snowflake arms lean one way, or the base bunches.** Both arm-end sl sts share the same ch-5 space, and tension is the whole trick: work the FIRST sl st of each arm loose enough that the base of the arm lies flat (too tight twists the arm into the opening sl st), then work the LAST sl st snug so the arm stands upright.

Colorways

Snow white · Classic red & white · Gold · Evergreen trio · Frost blue

Helpful tips

Bundle at a glance

Piece	Time	Yarn (worsted)	Ideal use
Bauble	~25 min	3 g	Tree ornament, garland
Star	~20 min	2 g	Gift topper, garland
Snowflake	~15 min	2 g	Window, gift tag, garland

All three string neatly on one length of yarn - a matching garland is just all three patterns on repeat.

Care & storage

Follow the yarn and metallic-thread labels. Before publishing a cleaning claim or supplying finished ornaments, test the proposed method on a complete blocked sample and check for dye transfer, distortion, melted or dulled fibres, released stuffing and weakened hanging loops after it is fully dry. Store the ornaments dry and flat or supported, without crushing the star or snowflake points. Reblock only with the fibre-appropriate method above; never apply an iron directly.

Terms of Use

Copyright & ownership

This crochet pattern - including all instructions, stitch counts, photography and design elements - is the original work and intellectual property of Novality Store, designed by Novality Crochet Studio. Design Code NS 13.

© 2026 Novality Store. All rights reserved.

This pattern is licensed to the purchaser for personal use and for the small-batch sale of finished physical items under the terms below. You may not copy, redistribute, resell, share, translate, reproduce, or claim the pattern itself as your own. The pattern itself may not be uploaded, reproduced, or distributed in digital or printed form without permission from Novality Store.

You may

Make as many finished ornaments as you like for yourself, gifts, or charity. Sell physical finished items made from this pattern in small batches, in shops, markets and online, provided credit is given to "Novality Store".

You may not

Do not resell, share, redistribute, translate, rewrite, publish or upload this digital PDF or its contents in any form. Do not alter, copy or recolor the pattern and claim it as your own. Do not use the Novality Store name, logo or photos beyond crediting the pattern. Do not mass-produce finished items commercially without written permission.

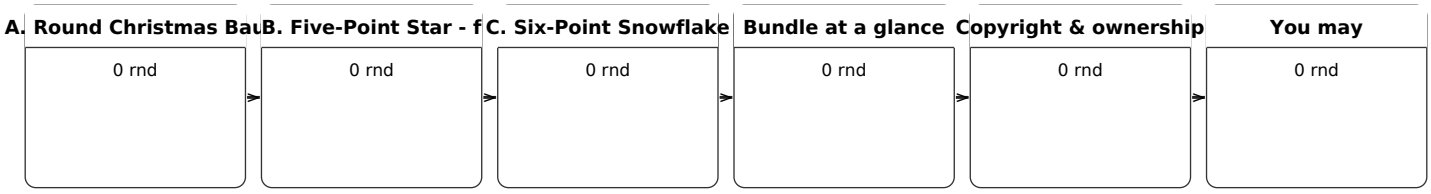

Safety reminder

These are intended as decorations, not toys. Keep ornaments and hanging loops out of children’s reach, use loops only as long as needed, and secure every knot. Before supply, assess intended and reasonably foreseeable use and meet all market-specific product-safety duties.

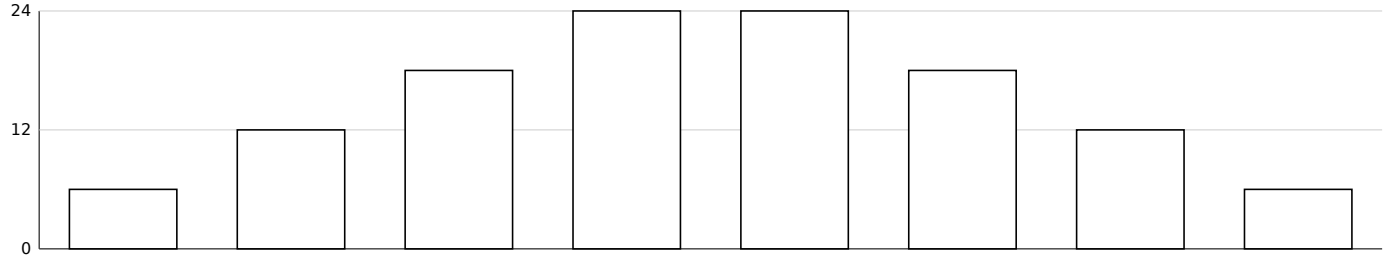

Happy crocheting!

Tag your makes with **#NovalityStore** and **#NovalityOrnaments** - Tag us in your trees and tables. Thank you for supporting an independent pattern designer.

Appendix A - Assembly Map & Count Chart

Sew faces and small parts first, then join pieces in the numbered assembly order given in Finishing & assembly.

Stated stitch count per round. Grey bars = marked zones.

Appendix B - Count Ladder & Verification Summary

Rnd	Sts
R1	6
R2	12
R3	18
R4	24

Rnd	Sts
R5-6	24
R7	18
R8	12
R9	6

Verification summary

Every round count in this pattern was re-derived from its own instructions by an independent auditor (PASS: 8 ladder rows, 0 mismatches) and by the deterministic static-analysis engine crochet-check v1.0.0. No count below is sampled or hand-checked.

Axiom	What it guarantees	Findings
Domain Isolation	Pieces keep separate stitch domains	0
Edge Lineage	Every round consumes exactly the previous total	0
Open Boundaries	Open edges are closed or sewn deliberately	0
Gauge Bounding	Hook and gauge band consistent with stated size	0

Assembly map, count chart, ladder equivalents and the 5-axiom table are computed from the corrected master at compile time; no sampled results.
