Mini Stocking Advent Garland

Cuff-down mini stocking with six-row heel flap · garland of 24 · 12 cm

CROCHET PATTERN · US TERMS · ADVANCED BEGINNER · 1 HOUR EACH · INK-FRIENDLY PRINT LAYOUT

✓ 5-AXIOM MATH VERIFIED ON PAPER	HEEL FLAP	TOE DECREASE	EDGE PICKUP	DK #3

RED - MAIN CREAM - CUFF named original colourway

WHAT YOU GET	VERIFICATION	PRINT NOTES
Cuff-down mini stocking with six-row heel flap Full US-terms instruction tables Finishing, troubleshooting and care pages	✓ 5-axiom mathematical audit All round counts re-derived exactly Paper-verified: no sample crocheted	US Letter, no full-bleed colour Tables sized for home printers Checklist and record pages included

Every proportion pinned, counted and re-derived

each piece is worked in the order listed and sewn in the numbered assembly sequence; all stitch counts in this edition re-derive exactly from the written rounds.

Paper-verified edition: every stitch count, repeat multiplier, chain length and decrease schedule in this document was re-derived from its own instruction text. No sample was crocheted, blocked, weighed or measured, so all sizes, yarn quantities and times are targets for you to confirm on your first make.

Cover artwork is an illustrative render of the written design - not a photograph of a sample.

Safety — read this first

This pattern makes a decoration and small treat holder; it does not establish that the finished item is a toy or suitable for any age. A long garland cord, hanging loops, bells, beads, buttons, tags, clips, coins, sweets and other small or detachable contents can create entanglement, choking, ingestion or allergy hazards. Keep the garland and every filling out of reach of children and animals unless a qualified assessment for the actual construction, intended use and destination market establishes otherwise. Never hang it over a bed, cot, play space, doorway, heat source, naked flame or lit candle.

For the plain version, embroider or securely sew decorations and avoid glue-only attachments. A stitched decoration can still detach, so inspect every attachment and hanging point before each season and after filling. Use a support and wall fixings rated for the complete filled garland, not just the empty crochet. Food should remain in its own wrapper and must be selected with the recipient's allergies and age in mind.

No finished NS 16 stocking or garland has been independently load-tested, wash-tested or shown by Novality Store to comply with a product-safety regime. Before sale or supply, the finished-item maker or seller must determine the applicable classification, assessment, testing, documentation, labelling and traceability duties for every destination market.

Quick facts

Detail	Original version
Skill level	Advanced beginner: joined rounds, turned rows, short-row decreases and edge pickup
Finished size	Target about 10 cm / 4 in tall and 5 cm / 2 in wide when laid flat
Yarn	DK / light worsted / 8-ply
Hook	4.0 mm (US G/6), or the size needed to meet the target gauge
Construction	Cuff-down joined rounds; six-row heel flap; four shaping rows; counted foot pickup; decreased toe
Active time	Original estimate 15–20 minutes after practice; make and time one complete sample before advertising this claim
Terminology	US crochet terms

Materials

One stocking

- DK / light worsted (#3) yarn: main colour (MC), about 16 m / 17 yd for the leg and foot.
- DK yarn: cuff colour (CC), about 4.5 m / 5 yd.
- DK yarn: accent colour (AC), enough for the heel, toe and hanging loop. Weigh a completed sample if buying for a batch.
- 4.0 mm crochet hook.
- Blunt tapestry needle, scissors, stitch marker and rust-resistant pins.
- Optional: a very small amount of polyester fibre fill for a display-only puffy toe. Do not add stuffing when maximum treat capacity is required.

Twenty-four-stocking garland

The stated per-stocking main-colour estimate scales to about 380 m / 410 yd before swatching or allowance; the cuff estimate scales to about 110 m / 120 yd. Accent use depends on whether both heel and toe are contrasted. Make, weigh and measure one complete stocking in the actual yarn, multiply each colour by 24 and add an allowance for swatching, tails and variation before purchasing.

Also obtain 2.2 m / 7 ft of load-appropriate ribbon, woven cord or yarn for the support; secure wall fixings; and, if used, securely attached number tags or clips. Do not assume a decorative jute string or adhesive hook can support 24 filled stockings.

Gauge & size

Target gauge: about 20 sc and 20 rounds = 10 cm / 4 in in joined single crochet, measured without stretching. At this gauge, 20 stitches make a circumference of about 10 cm / 4 in and a laid-flat width of about 5 cm / 2 in.

Gauge controls both the advertised size and what the stocking can hold. Before making the batch, complete one stocking, let it rest, then measure height, flat width, leg circumference and capacity. If it is too open or floppy, use a smaller hook; if it is too narrow for the intended wrapped item, use a larger hook and remeasure. Do not advertise the target dimensions or capacity as measured facts until a sample confirms them.

Abbreviations (US terms)

- AC — accent colour
- BLO — back loop only
- CC — cuff colour
- ch — chain
- dec — invisible single-crochet decrease; work the front loops of the next two stitches together
- FO — fasten off
- MC — main colour
- rnd — round
- RS — right side
- WS — wrong side
- sc — single crochet
- sl st — slip stitch
- st(s) — stitch(es)

The starting ch 1 never counts as a stitch. Joined rounds end with a sl st to the first sc; do not work into that joining slip stitch. Move the marker to the first sc of every round.

Techniques, used in the order you will meet them

Untwisted ring: lay the 20-chain foundation flat before joining so the chain does not spiral.

Joined round: ch 1, work the stated stitches beginning in the same stitch as the join, then sl st to the first sc.

Turned heel row: the ch 1 does not count; turn after every row that says turn.

Heel-edge pickup: distribute five stitches along each complete exposed heel edge, including the stepped heel-turn section and the full-flap row ends. Work under two edge strands wherever possible; five pickups per side are mandatory for the 23-stitch route.

Invisible decrease: use the front loops of the next two stitches; it consumes two stitches and produces one.

Instructions

1. Cuff and leg

With CC, ch 20 loosely. Check that the chain is untwisted, then sl st in the first chain to form a ring. Ch 1; this turning chain does not count. The foundation chain provides 20 anchors and is not an extra crochet round.

Rnd	Instruction	Sts	Note
R1	sc in each of 20 foundation chains around	(20)	join to first sc
R2	BLO sc in each st around	(20)	ribbed cuff
R3	BLO sc in each st around	(20)	ribbed cuff
R4	BLO sc in each st around	(20)	ribbed cuff
R5	with MC, sc in each st around	(20)	both loops
R6	sc in each st around	(20)	leg
R7	sc in each st around	(20)	leg
R8	sc in each st around	(20)	leg

Rnd	Instruction	Sts	Note
R9	sc in each st around	(20)	leg
R10	sc in each st around	(20)	leg; join, do not FO

Rnds 5–10 make six main-colour leg rounds. For stripes, change colour only at a completed join and carry or secure the inactive yarn without tightening the tube.

2. Heel flap and turn

The heel uses the next 10 consecutive stitches, beginning in the same stitch as the Rnd-10 join. The other 10 leg stitches remain unworked as the instep. Continue in MC or change to AC at the join.

Row	Instruction	Sts	Note
Row 1	ch 1, sc in same st as join and next 9 sts, ch 1, turn	(10)	RS; each ch 1 is uncounted; 10 instep sts wait
Row 2	BLO sc in each st across, ch 1, turn	(10)	WS
Row 3	sc in each st across, ch 1, turn	(10)	RS
Row 4	BLO sc in each st across, ch 1, turn	(10)	WS
Row 5	sc in each st across, ch 1, turn	(10)	RS
Row 6	BLO sc in each st across, ch 1, turn	(10)	WS; the turn is required
Row 7	6 sc, dec; leave final 2 sts unworked, ch 1, turn	(7)	consumes 8 of 10
Row 8	4 sc, dec; leave final st unworked, ch 1, turn	(5)	consumes 6 of 7
Row 9	3 sc, dec, ch 1, turn	(4)	consumes all 5
Row 10	2 sc, dec; do not turn	(3)	heel centre

The corrected Row-6 turn is essential: without it there are no stitches ahead of the hook for Row 7. Rows 7–10 alternate direction and reduce 10 active stitches to 3 while the unworked ends help form the heel cup. Do not crochet into those unworked top loops as extra heel-turn stitches.

3. Foot pickup and evening

After Row 10, do not turn. The hook is at one edge of the three-stitch heel centre. Ch 1; this chain does not count. Follow the exposed perimeter from the hook toward the leg opening—do not work across the three Row-10 stitches yet. Work the pickup in this exact order and place the marker in the first picked-up sc:

Work exactly 5 sc evenly along the complete first heel edge from Row 10 to the leg opening. That is about one pickup for every two row ends; if the edge puckers, spread the same five pickups over a longer span of the edge and note the change on your sample. Include the compact stepped edge made by Rows 7–10 and the row-end edge of the six full flap rows; place the first and fifth pickups close to the two junctions. Work under two edge strands wherever possible.

Work 1 sc in each of the 10 waiting instep stitches.

Work exactly 5 sc along the complete second heel edge, mirroring the first side and ending beside the far edge of Row 10.

Work 1 sc in each of the 3 Row-10 heel-centre stitches, returning to the beginning of the pickup round.

Join to the first picked-up sc: 5 + 10 + 5 + 3 = 23 stitches.

The five side stitches are distributed over each whole exposed heel edge; they are not five extra stitches plus additional stitches in the heel-turn steps. If a large gap remains at either heel-centre or leg junction, undo that side and move its nearest pickup closer to the junction without changing the five-stitch side count.

Rnd	Instruction	Sts	Note
Foot R1	5 side sc, 10 instep sc, 5 side sc, 3 heel-centre sc	(23)	exact pickup route above
Foot R2	4 sc, dec, 5 sc, dec, 5 sc, dec, 3 sc	(20)	consumes all 23; three decreases
Foot R3	sc in each st around	(20)	join
Foot R4	sc in each st around	(20)	join
Foot R5	sc in each st around	(20)	join
Foot R6	sc in each st around	(20)	join
Foot R7	sc in each st around	(20)	join

Do not move the three Foot-R2 decreases arbitrarily: the written 4 / 5 / 5 / 3 spacing distributes them around the counted pickup. If the pickup does not equal 23, undo it and correct the side anchors before continuing.

4. Toe

Change to AC at the Foot-R7 join if desired.

Rnd	Instruction	Sts	Note
Toe R1	[3 sc, dec] x 4	(16)	20 to 16
Toe R2	[2 sc, dec] x 4	(12)	16 to 12
Toe R3	[sc, dec] x 4	(8)	add optional display stuffing now
Toe R4	dec x 4	(4)	FO with 15 cm / 6 in tail

Thread the tail through the front loop of each remaining stitch in order, pull closed, knot on the inside and weave the tail through several neighbouring stitches before trimming.

5. Hanging loop

Mark the back-centre stitch of Cuff Rnd 4. Join CC or AC under both loops of that stitch, ch 12, then sl st under both loops of the same marked stitch and once through the next Cuff-Rnd-4 stitch in the direction of work. FO, knot the two tails together inside and weave each tail in a different direction for at least 2.5 cm / 1 in. The finished loop is a hanging aid, not a rated handle; inspect it while the stocking is filled.

For a clip-on garland, omit this loop and use clips sized so they cannot pass through the stocking opening. Small clips remain a detachable hazard.

Finishing & assembly

Weave every colour-change tail through the wrong side in two directions. Shape the heel with a finger and check that it projects on the opposite side from the instep. Confirm the opening remains usable, the toe is fully closed and the hanging loop cannot pull free under the intended filled weight.

Optional numbers and motifs should be embroidered on the cuff or upper leg before filling, away from the hanging-loop anchor. If using a separately crocheted motif, sew around its complete perimeter and secure the tails inside; do not rely on glue. Bells, beads, buttons, wooden tags and clothespins are display-only additions unless the complete finished arrangement has been appropriately assessed.

Making the 24-stocking Advent garland

Make and approve one complete stocking before batch work. Then make 24 identical counted routes, or record any intentional colour-only variations.

Number 1–24 with secure embroidery or another method appropriate to the actual users and assessment. Do not obscure the hanging-loop anchor.

Cut 2–2.5 m / 6–8 ft of support. Leave enough free length at each end for the rated wall fixing. Measure the usable span between those two end allowances and divide it by 23 to mark the centre-to-centre spacing for 24 stockings. For example, a 200 cm support with 20 cm reserved at each end leaves 160 cm; 160 ÷ 23 is approximately 7 cm between centres.

Thread each tested loop onto the support or attach the clip-on version. Place each stocking at a marked centre, then add a stopper knot or secure stitch beside each loop so loaded stockings cannot all slide to one end. Increase the usable span if the filled stockings overlap at the calculated spacing.

Fill only after the empty garland is mounted. Keep each wrapped item within the tested stocking and support capacity.

Assembly-line production—cuffs first, then legs, heels, pickups and toes—can reduce colour changes, but each stocking must retain its own count and inspection record. The source estimate of 15–20 minutes per stocking excludes the first samples, decorations, weaving, mounting and filling; time the actual process before using that claim in a listing.

Troubleshooting

- **The foundation twists:** undo the join, lay all chain bumps in one direction and rejoin.
- **The heel cannot start after Row 6:** Row 6 must end with ch 1 and turn. Do not omit that corrected turn.
- **There is a hole beside the heel:** redistribute the five pickups over the complete exposed edge, placing the end pickups close to the heel-centre and leg junctions; work under two edge strands wherever possible.
- **The pickup is not 23:** recount 5 side + 10 instep + 5 side + 3 heel centre. Do not compensate in the evening round.
- **The foot is still above 20:** Foot R2 contains exactly three decreases and consumes all 23 stitches.
- **The stocking leans:** confirm both heel sides use corresponding gaps and each leg/foot plain round has 20 stitches.
- **The cuff is too small for the intended item:** change hook only after making a new sample; then remeasure the full stocking and support load.

Colorways

Original colourway: classic red MC for leg and foot, snow-white CC for the ribbed cuff, and evergreen AC for heel, toe and hanging loop. All three colours should be similar DK yarns so the gauge remains consistent.

Alternative palettes: winter white / silver-grey / pale blue; natural cream / heather brown / deep red; Scandinavian red / white / small black embroidery; blush pink / cream / mint; or a scrap-yarn set with one consistent cuff colour. Record the actual colour and fibre used for every stocking if care labels differ.

Designer notes

The small scale is intended for one wrapped mini sweet or a tightly rolled paper note at the target gauge. Capacity varies with yarn, tension and heel shaping. A 25th stocking may be made for Christmas Day, but it uses the same construction and is not automatically larger.

Care & storage

Remove all food, notes, clips and detachable decorations before cleaning. Follow the most restrictive label among all yarns, threads and additions. Before publishing a care claim, clean and fully dry one complete stocking and a representative section of the loaded-support system by the proposed method; remeasure and inspect colour transfer, shrinkage, heel shape, loop security and fibre damage. Until that test passes, recommend gentle surface cleaning with a barely damp cloth and drying flat away from heat.

Store clean, empty and completely dry. Do not fold heavy objects into the heel or leave the garland under tension between seasons. Inspect cord, wall loops, stocking loops and every attachment before rehanging.

You may

Make finished stockings for yourself, gifts or charity. Sell finished physical items made from this pattern in small quantities, provided the listing credits “Pattern by Novality Store · Design Code NS 16” and does not claim unverified safety, testing, size, capacity or care results.

You may not

Resell or distribute this PDF or Markdown source; convert it into another pattern product; use its text, tables or visuals as listing assets for a competing pattern; claim authorship; or mass-produce finished items without written permission. Credit does not grant use of the studio name as your own brand.

Safety reminder

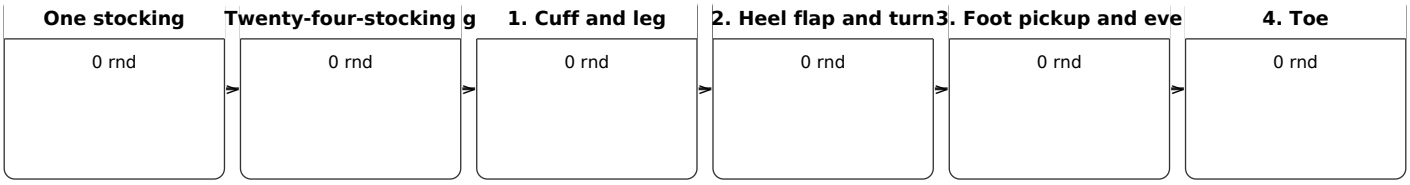

The finished-item maker or seller remains responsible for the actual materials, classification, assessment, testing, warnings, documentation, labelling and traceability required in every market where a finished item is supplied.

Tag finished projects with **#NovalityStore** and **#NovalityMiniStocking**.

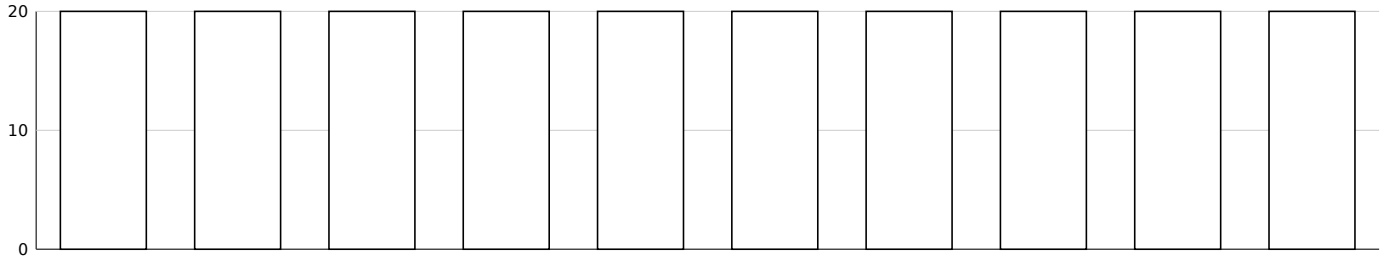

Happy crocheting!

Check every box, preserve the 5 + 10 + 5 + 3 pickup and enjoy building the colour sequence one stocking at a time.

Appendix A - Assembly Map & Count Chart

Sew faces and small parts first, then join pieces in the numbered assembly order given in Finishing & assembly.

Stated stitch count per round. Grey bars = marked zones.

Appendix B - Count Ladder & Verification Summary

Rnd	Sts
R1	20
R2	20
R3	20
R4	20
R5	20

Rnd	Sts
R6	20
R7	20
R8	20
R9	20
R10	20

Verification summary

Every round count in this pattern was re-derived from its own instructions by an independent auditor (PASS: 10 ladder rows, 0 mismatches) and by the deterministic static-analysis engine crochet-check v1.0.0. No count below is sampled or hand-checked.

Axiom	What it guarantees	Findings
Domain Isolation	Pieces keep separate stitch domains	0
Edge Lineage	Every round consumes exactly the previous total	0
Open Boundaries	Open edges are closed or sewn deliberately	0
Gauge Bounding	Hook and gauge band consistent with stated size	0

Assembly map, count chart, ladder equivalents and the 5-axiom table are computed from the corrected master at compile time; no sampled results.
