WHAT YOU GET	VERIFICATION	PRINT NOTES
Sea turtle bag charm in two sizes Full US-terms instruction tables Finishing, troubleshooting and care pages	✓ 5-axiom mathematical audit All round counts re-derived exactly Paper-verified: no sample crocheted	US Letter, no full-bleed colour Tables sized for home printers Checklist and record pages included

Every proportion pinned, counted and re-derived

each piece is worked in the order listed and sewn in the numbered assembly sequence; all stitch counts in this edition re-derive exactly from the written rounds.

Paper-verified edition: every stitch count, repeat multiplier, chain length and decrease schedule in this document was re-derived from its own instruction text. No sample was crocheted, blocked, weighed or measured, so all sizes, yarn quantities and times are targets for you to confirm on your first make.

Cover artwork is an illustrative render of the written design - not a photograph of a sample.

A pocket sea turtle on a keyring. It takes about half an hour and a few grams of yarn; the head and flippers are worked straight into the underside so there is almost nothing to sew.

FINISHED SIZE About 3.7 cm (1.5 in) across the flippers, 3.2 cm long and 1.9 cm deep. DK cotton on a 2.5 mm hook. The shell edge has 24 stitches; the underside has 24 base anchors before its 35-stitch appendage round. A bigger 5.7 cm version is included.

Safety — read this first

Use two embroidered French-knot eyes. The four-stitch head fan is too small to seat two plastic eye washers reliably, so plastic eyes are not an option in this pattern. The metal keyring can become a small-part hazard if its attachment or surrounding fabric fails. Secure it with doubled yarn through TWO shell stitches while the seam is still open, knotting the ends inside before final stuffing and closure; check the ring, yarn and fabric by hand before each use.

No finished Shelby has been shown by Novality Store to comply with ASTM F963, EN 71 or any other product-safety regime. “Bag charm” is its intended use, but a name or warning alone does not determine legal classification. Before supply, the finished-item maker or seller must assess intended and reasonably foreseeable use and meet the applicable testing, documentation, labelling and traceability duties in every destination market.

Materials

- Shell yarn: DK / light worsted (#3) cotton, about 2 g - sage, teal, mustard or rust.
- Body yarn: DK cotton, about 1 g in contrast cream, sand or pale green.
- Hook: 2.5 mm.
- Embroidery: black floss for two small French-knot eyes (no plastic eyes), plus a short strand one shade darker than the shell for its V markings.
- Also: a pinch of polyfill (under 1 g), tapestry needle, one 25 mm keyring or lobster clasp per turtle.

Gauge & size

Gauge: about 3.5 mm per stitch and 3.2 mm per round. The whole charm is 203 stitches (~3 m of DK); 24 stitches = a 26.7 mm disc that sets the size.

Abbreviations (US terms)

MR - magic ring · ch - chain

sc - single crochet · hdc - half double crochet

inc - increase (2 sc in one st) · dec - invisible decrease

sl st - slip stitch · BLO - back loop only

FO - fasten off · st(s) - stitch(es) · Rnd(s) - round(s)

(n) - stitch count at round end

Start in a magic ring and work continuous spiral rounds with a marker - no joins, no chain 1 between rounds.

Techniques used, in the order you will meet them

Magic ring & spiral - Start in a magic ring and work continuous spiral rounds with a marker - no joins, no chain 1 between rounds.

Back loop only (BLO) - Work into the far loop only; the unused loops form a raised ridge. On the shell that ridge is the rim - it makes the dome read as a shell rather than a bun.

Clusters into one stitch - The trick of the head and flippers: work every stitch of the group into ONE back loop of the previous round so they share an anchor and fan into a bump. Work the whole appendage round in BACK LOOPS ONLY; the 24 unused front loops remain as clear seam loops. Each cluster consumes one anchor and produces as many stitches as it contains, so 24 anchors produce 35 stitches.

Whip stitch & French knots - Join shell and underside with an even whip stitch so the seam does not pucker. For each eye, bring the needle up, wrap the floss once or twice around the needle, push back down close by and pull slowly; knot both floss ends securely on the wrong side before joining.

Instructions

1. Shell - DK cotton (sage, teal, mustard or rust)

Rnd	Instruction	Sts	Note
R1	6 sc in MR	(6)	-
R2	inc in each st around	(12)	-
R3	[sc, inc] x 6	(18)	-
R4	[2 sc, inc] x 6	(24)	-
R5	BLO sc around	(24)	rim ridge
R6	sc in each st around, then FO	(24)	FO with a 30 cm tail

Before joining, embroider five or six shallow V shapes in a darker shade across the dome - two minutes, and the difference between a turtle and a green blob.

2. Underside - contrast flat disc

Rnd	Instruction	Sts	Note
R1	6 sc in MR	(6)	-
R2	inc in each st around	(12)	-
R3	[sc, inc] x 6	(18)	-
R4	[2 sc, inc] x 6	(24)	do NOT fasten off - work head & flippers next

Head & flippers (work from the live edge)

Rnd	Instruction	Sts	Note
R5	BLO: 3 sc, (sc, hdc, hdc, sc) in next st, 4 sc, (sc, hdc, sc) in next st, 3 sc, (sc, hdc, sc) in next st, 4 sc, (sc, hdc, sc) in next st, 3 sc, (sc, hdc, sc) in next st, 2 sc	(35)	head & flippers; leave all 24 R4 front loops free for seaming

This consumes 3+1+4+1+3+1+4+1+3+1+2 = 24 back-loop anchors (closing the disc) and produces 35 stitches while leaving 24 front-loop seam anchors. The first, four-stitch bump is the HEAD; the four smaller bumps are flippers. Sl st to the first R5 sc and FO with a 20 cm tail. The bumps land on stitches 4, 9, 13, 18 and 22, placing the front flippers either side of the head.

3. Face - read before you join

The head bump is only ~7-10 mm across. Work two small black FRENCH KNOTS, 2 worked stitches apart, low on the four-stitch head fan. Knot the floss ends on the wrong side. Do not substitute plastic safety eyes here: two washers cannot be seated with reliable clearance on this tiny one-row fan.

The BLO rim ridge and embroidered V markings turn the dome into a shell.

Finishing & assembly

Joining the shell: finish and knot the embroidered eyes first. Hold the shell to the underside, wrong sides together, head pointing away from the shell's tail. Whip-stitch with the shell's 30 cm tail, matching the shell's 24 edge stitches one-for-one to the 24 exposed front loops of underside R4 - NOT to the 35 stitches of the appendage round. At each bump, use the exposed front loop directly below its base; never sew through the fan stitches themselves.

When about 5 cm / 2 in of seam remains, pass a doubled 20 cm strand of body yarn through TWO adjacent shell stitches at the back (opposite the head) and through the keyring twice. Tie the yarn ends together securely INSIDE the shell. Add a small pinch of stuffing, keep the charm flat (the shell holds only ~8 cm3), finish the seam, then weave in all ends. Do not wait until the seam is closed to secure the ring.

Troubleshooting

- **Flippers uneven.** Count the plain runs between bumps: 3, 4, 3, 4, 3, then 2 at the end.
- **Keyring pulls out / too fat to hang.** Attach through two stitches and knot inside. Use less stuffing so the charm stays flat against a bag.
- **Shell and base won't pair.** Use the 24 exposed front loops of underside R4, one per shell stitch; do not try to match the 35 appendage-round stitches.

Bigger Shelby (~5.7 cm across)

Work the shell to 42 stitches: Rnd 1 (6), Rnd 2 (12), Rnd 3 (18), Rnd 4 (24), Rnd 5 [3 sc, inc] x 6 (30), Rnd 6 [4 sc, inc] x 6 (36), Rnd 7 [5 sc, inc] x 6 (42), Rnd 8 BLO sc around (42), Rnd 9 sc around (42). Work underside Rnd 1-7 the same to 42 stitches, and do not fasten off.

Underside Rnd 8 (head & flippers), worked BLO throughout: 7 sc, (sc, hdc, hdc, sc) in next st, 8 sc, (sc, hdc, sc) in next st, 7 sc, (sc, hdc, sc) in next st, 8 sc, (sc, hdc, sc) in next st, 7 sc, (sc, hdc, sc) in next st = 53 stitches, consuming all 42 back-loop anchors and leaving all 42 front loops exposed. Sl st to the first sc of this round and FO. Join the shell's 42 edge stitches to those 42 exposed front loops by the same rule as the small version. Allow 45-50 minutes and about 4 g of yarn.

Colorways

Original colourway: sage-green shell, cream underside/head/flippers, darker-sage embroidered shell markings and black French-knot eyes. Optional shell variations: teal, mustard or rust; pair each with a clearly contrasting sand, cream or pale-green body.

Care

Follow the labels for the yarn, embroidery floss and keyring. Before publishing a care claim or supplying finished charms, clean and dry a complete sample by the proposed method, then inspect for dye transfer, corrosion, distortion, stuffing migration and damage to the ring attachment or seam. Until that sample test passes, recommend wiping the crochet surface with a barely damp cloth, keeping the metal ring as dry as possible, then drying the charm flat. Check the ring, doubled attachment yarn and surrounding shell stitches before each use and after cleaning.

Terms of Use

Copyright & ownership

This crochet pattern - including all instructions, stitch counts, photography and design elements - is the original work and intellectual property of Novality Store, designed by Novality Crochet Studio. Design Code NS 09.

This pattern is licensed to the purchaser for personal use and for the small-batch sale of finished physical items under the terms below. You may not copy, redistribute, resell, share, translate, reproduce, or claim the pattern itself as your own. The pattern itself may not be uploaded, reproduced, or distributed in digital or printed form without permission from Novality Store.

You may

Make as many finished charms as you like for yourself, gifts, or charity. Sell physical finished items made from this pattern in small batches, in shops, markets and online, provided credit is given to “Novality Store”.

You may not

Do not resell, share, redistribute, translate, rewrite, publish or upload this digital PDF or its contents in any form. Do not alter, copy or recolor the pattern and claim it as your own. Do not use the Novality Store name, logo or photos beyond crediting the pattern. Do not mass-produce finished items commercially without written permission.

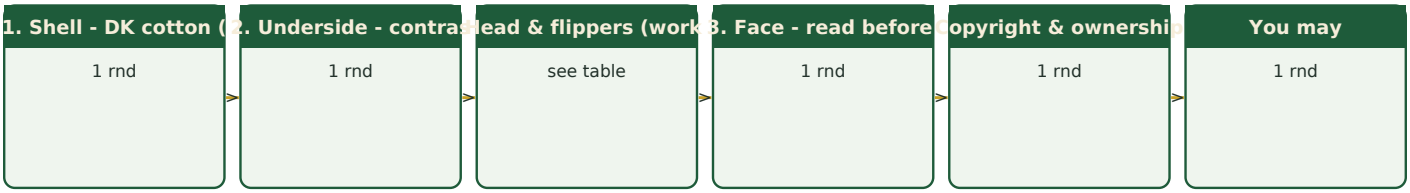

Safety reminder

Shelby uses embroidered French-knot eyes and a metal keyring and is designed as a keyring / bag charm. No finished Shelby has been shown by Novality Store to comply with ASTM F963, EN 71 or another product-safety regime, and its name alone does not determine classification. Attach the ring through two shell stitches with doubled yarn, knot it inside before closing the seam, and complete all market-specific assessment and documentation required before supply.

Happy crocheting!

Tag your makes with **#NovalityStore** and **#ShelbyTheSeaTurtle** - We love seeing your makes. Thank you for supporting an independent pattern designer.

Appendix A - Assembly Map & Count Chart

Sew faces and small parts first, then join pieces in the numbered assembly order given in Finishing & assembly.

Stated stitch count per round. Gold bars = marked zones.

Appendix B - Count Ladder & Verification Summary

Rnd	Sts
R5	35

Verification summary

Every round count in this pattern was re-derived from its own instructions by an independent auditor (PASS: 1 ladder rows, 0 mismatches) and by the deterministic static-analysis engine crochet-check v1.0.0. No count below is sampled or hand-checked.

Axiom	What it guarantees	Findings
Domain Isolation	Pieces keep separate stitch domains	0
Edge Lineage	Every round consumes exactly the previous total	0
Open Boundaries	Open edges are closed or sewn deliberately	0
Gauge Bounding	Hook and gauge band consistent with stated size	0

Assembly map, count chart, ladder equivalents and the 5-axiom table are computed from the corrected master at compile time; no sampled results.
