Use the written colour names and material roles when selecting yarn; screen and printer appearance varies.

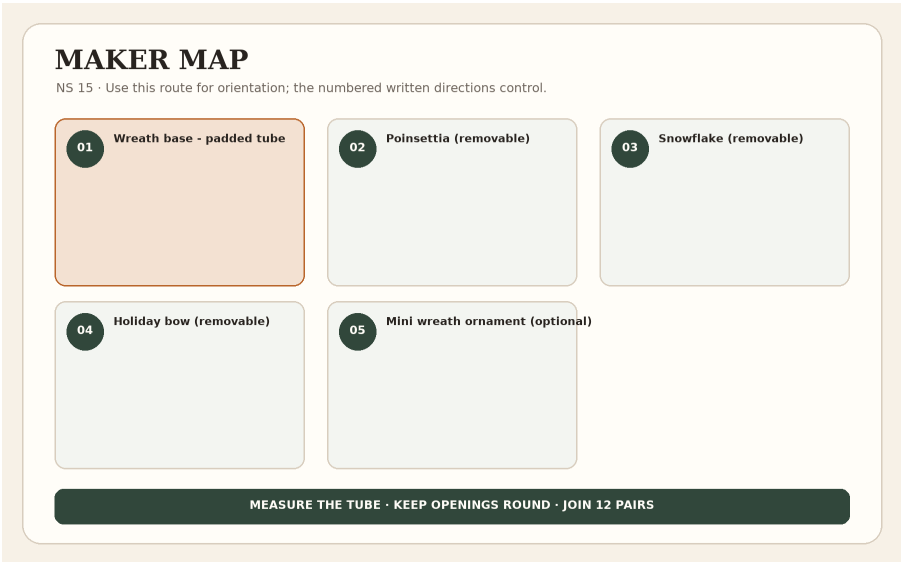

FIGURE 1 · Illustrative maker map for NS 15. It supports navigation only; the written directions and counts control.

Read before making

Read every component and finishing note before beginning. Mark completed rows, confirm the count at each row end, and stop immediately if your count differs. Complete internal eyes, embroidery, knots and joins while the relevant opening remains accessible.

Safety: this PDF does not claim that a finished item meets any toy or consumer-product standard. Follow the full Safety section and obtain every assessment required for the finished item's intended market and use.

How to use this pattern

Read the complete component before beginning it. Move the marker at the start of every crochet round unless the master says otherwise. Diagrams and illustrations support orientation only; the numbered written directions control construction.

US + UK terms · Beginner · tube grows by length — Design Code NS 15

A stuffed spiral tube joined into a ring, dressed for the season with three REMOVABLE decorations: poinsettia, lace snowflake and a gift-bow. Swap them as the holidays change. Mini ornament, standard door and large door sizes.

FINISHED SIZE Mini ornament: 20-24 cm (8-9.5 in) tube; centreline ring diameter about 6.5-7.5 cm. Standard door wreath: 86-97 cm (34-38 in) tube; centreline diameter about 27-31 cm. Large door wreath: 119-132 cm (47-52 in) tube; centreline diameter about 38-42 cm. The finished OUTSIDE diameter is one tube thickness larger, so measure your sample. Poinsettia approx. 3-4 in; snowflake approx. 4 in; bow approx. 3-4 in wide.

Safety — read this first

This design is intended as home decor, not a toy. A stuffed wreath is heavier than it looks: use a securely installed, load-rated hook and a load-rated woven cord or ribbon around the whole tube; do not rely on a suction cup or on a decoration tie.

No finished wreath or hanging system has been independently load-tested or assessed by Novality Crochet Studio. Before supply or installation, the finished-item maker or seller must assess the actual materials, construction, support and foreseeable environment and meet all market-specific product-safety, documentation, labelling and traceability duties. A “home decor” label does not replace requirements arising from intended or reasonably foreseeable use.

Materials

- Wreath base: 150-200 g green worsted/aran (#4), 4 mm hook, fibre fill.
- Decorations: small amounts of red, white, yellow and green yarn; optional metallic thread held with the snowflake yarn; 3.5-4 mm hook.
- For a door wreath, use a load-rated woven hanging cord or ribbon long enough to wrap twice around the full tube. Do not add loose or glued embellishments anywhere children can reach.
- Notions: stitch marker, scissors, tapestry needle.

Gauge & size

Gauge is not critical - the tube is a constant 12 stitches and wreath size comes from tube LENGTH. Measure the tube, not the round count. The ring's centreline diameter is approximately tube length divided by 3.14; add one tube thickness for the outside diameter.

Abbreviations (US + UK)

MR - magic ring · dc = tr - double crochet / treble crochet
 ch - chain · tr = dtr - treble crochet / double treble crochet
 sl st - slip stitch · st(s) - stitch(es)
 sc = dc - single crochet / double crochet · R - round
 hdc = htr - half double crochet / half treble crochet · FO - fasten off
 (n) - stitch count at round end

How to read this dual pattern: every round appears twice side by side - the US-terms instruction in the left column, the exact UK equivalent in the right column. Stitch counts are identical for both terminologies. Prose tips use US terms.

Construction & techniques

Wreath base: continuous spiral rounds (no joins - use a marker). Decorations: joined rounds for flowers and snowflake, short worked rows for the bow.

1. The constant stitch tube - Every tube round is exactly 12 sc - no increases, no decreases. Tube length sets wreath size: measure against the door/table and stop after a complete round.
2. Joining the tube - Keep both openings ROUND and make sure the tube is not twisted. Align each stitch of the final 12-stitch round with one foundation chain at the beginning; whip-stitch the 12 pairs around the circumference. Add the last stuffing before closing the final 3 pairs. Flattening the ends would seal them into bars instead of making a smooth end-to-end tube join.
3. Snowflake arm (shared with NS 13) - Into each ch-5 space: (sl st, ch 3, 3 tr, ch 3, sl st). First sl st loose, last sl st snug so the arm lies flat and stands upright.
4. Removable ties - Cut a 55 cm strand in the decoration colour and fold it in half (30 cm is enough for the mini wreath). Draw the folded loop under at least TWO sturdy stitches on the decoration back, pass both cut ends through that loop and snug it: this lark's-head anchors the tie without asking one stitch to carry the load. Take the two tails in opposite directions around the wreath tube and tie a secure bow or reef knot at the back. Untie the tails to swap decorations; unlike a short closed loop, this method does not require you to force the whole flower, snowflake or bow through its own attachment.

Instructions

1. Wreath base - padded tube

Continuous spiral, constant 12 sts. Stuff lightly every 5-8 rounds; keep it bendable, and do not overstuff the last 10 rounds.

Starting ring & tube

Rnd	US terms	UK terms	Sts	Note
[] -	Ch 12, sl st to first ch to form a ring; place marker	Ch 12, sl st to first ch to form a ring; place marker	-	ring

4. Holiday bow (removable)

Two chain loops, two tails, one little centre band.

Bow

Rnd	US terms	UK terms	Sts	Note
[] Loops	With red: ch 24, sl st to first ch (loop 1 - untwisted); ch 24 again, sl st to same base point (loop 2)	With red: ch 24, sl st to first ch (loop 1 - untwisted); ch 24 again, sl st to same base point (loop 2)	-	two 24-ch loops
[] Tails	Ch 15, sc in 2nd ch from hook and across (14 sc), sl st to bow base; repeat for second tail	Ch 15, dc in 2nd ch from hook and across (14 dc), sl st to bow base; repeat for second tail	(14)	15 chains make 14 sc, x2 tails
[] Band	Ch 6, sc in 2nd ch from hook and across (5); rows 2-4: ch 1, turn, sc across (5)	Ch 6, dc in 2nd ch from hook and across (5); rows 2-4: ch 1, turn, dc across (5)	(5)	separate rectangle: 4 rows of 5; wrap around centre and sew short ends
[] Tie	Attach one folded 55 cm tie under at least 2 sturdy sts on the finished band back as in technique 4	Attach one folded 55 cm tie under at least 2 sturdy sts on the finished band back as in technique 4	-	two tails wrap around tube; tie at back

Arrange the two loops side by side and the two tails below them. Wrap the band tightly around all four pieces; sew its short ends together at the back, then use the remaining tail to tack through the loop and tail bases so nothing can slide out. Add the separate 55 cm removable tie last.

5. Mini wreath ornament (optional)

DK yarn, 3 mm hook, 8-st tube.

Mini tube

Rnd	US terms	UK terms	Sts	Note
[] -	Ch 8 ring; sc in each ch (8); spiral in 8 sc until the tube measures 20-24 cm; join the 8 end pairs ROUND as for the base; wrap a separate doubled yarn tie twice around the whole tube for hanging	Ch 8 ring; dc in each ch (8); spiral in 8 dc until the tube measures 20-24 cm; join the 8 end pairs ROUND as for the base; wrap a separate doubled yarn tie twice around the whole tube for hanging	(8)	gives about 6.5-7.5 cm centreline diameter

Finishing & assembly

- Stuff the tube as you go - after every 5-8 rounds is far easier than stuffing a finished tube.
- Join the tube LAST: keep the openings round, check for twists, whip-stitch all 12 matched pairs around and add the final stuffing before the last 3 pairs.
- Every decoration has a folded 55 cm tie lark's-headed under at least two back stitches; wrap its two tails around the tube and tie them at the back. Untie to swap - nothing is sewn permanently to the wreath.

Troubleshooting

- Tube is stiff like a rope. Over-stuffed - pull a pinch of fill per handful back out; the wreath must flex into a circle.
- Wreath will not hold a circle. Under-stuffed at the join - add a thin worm of fill through the join stitches, or wrap the join with spare yarn like a bandage.
- Poinsettia petals cluster on one side. Each petal goes into its OWN centre stitch, moving stitch by stitch around the six - not all six into one stitch.

Colourways

WREATH GREEN stuffed tube base · 150-200 g	POINSETTIA RED removable flower	SNOW WHITE removable snowflake	GOLD flower centre + bow accent

NAMED ORIGINAL COLOURWAY · WREATH GREEN · POINSETTIA RED · SNOW WHITE · GOLD.

Colourway notes: Classic green & red · Winter white & gold · Berry wreath · Neutral farmhouse green

Helpful tips

Sizes at a glance

Wreath	Target tube length	Approx. centreline diameter
Mini ornament	20-24 cm / 8-9.5 in	6.5-7.5 cm
Standard door	86-97 cm / 34-38 in	27-31 cm
Large door	119-132 cm / 47-52 in	38-42 cm

The outside diameter is one tube thickness larger. Round counts are deliberately omitted because row height changes dramatically with yarn, hook and stuffing; measure the actual tube.

Care & storage

Follow the labels for every yarn, stuffing, metallic thread and hanging component used. Before publishing a cleaning claim or supplying finished wreaths, clean and dry a complete sample by the proposed method, then remeasure it and inspect for dye transfer, distortion, stuffing migration, opened tube or decoration joins, and weakened hanging materials. Until that test passes, recommend gentle surface cleaning only. Store fully dry, supported and uncompressed; inspect the hanger, hook, tube seam and every tied decoration before each season and after severe weather.

You may

Make as many finished wreaths as you like for yourself, gifts, or charity. Sell physical finished items made from this pattern in small quantities with credit to Novality Crochet Studio.

You may not

Sell, share, copy or redistribute this pattern or any part of it. Claim the pattern as your own design. Produce items from this pattern as a factory or manufacturer.

Safety reminder

Intended as home decor, not a toy. Keep away from open flames and keep loose or glued additions out of children's reach. Use a securely installed, load-rated hook and a load-rated cord or ribbon wrapped twice around the entire tube. No finished wreath or hanging system has been independently assessed by Novality Crochet Studio; the finished-item maker or seller is responsible for market-specific product-safety evidence and duties before supply.
